EXOTIC MARBLE

Marble is a timeless and elegant natural stone formed from limestone through intense heat and pressure. Revered for its luxurious appearance, it features distinctive veining and a smooth, polished surface. Commonly used in architecture and design for centuries, marble symbolizes sophistication and is ideal for flooring, countertops, wall cladding, and decorative features. Its natural beauty and unique patterns make each slab one of a kind.

COMPOSITION

Marble is a metamorphic rock primarily composed of:

- Calcite (CaCO_3) – Its main mineral, giving marble its relative softness and light color tones.
- Other minerals like quartz, mica, graphite, iron oxides, or clay, which provide the dramatic veining and coloration seen in your slab.

USES OF MARBLE

Accent walls, Flooring, Bathroom walls & vanities, Fireplace, Tabletops & counters, Hotel lobbies, Reception areas, Boutiques or showrooms, Wall cladding – in elevators, corridors, or VIP lounges.

ABOUT US COLORS OF RAINBOW (COR)

We believe marble surfaces are more than material—they are expressions of elegance, endurance, and timeless artistry. Headquartered in Bangalore, India, COR is a premier name in sourcing and distributing exquisite marble slabs, offering a curated palette of over 100 distinctive colors and natural patterns.

Our carefully selected marble collection meets the highest global standards, blending strength with the innate beauty of stone formed over centuries. Designed for visionary architects, interior designers, developers, and homeowners, our range reflects a seamless balance between luxury and practicality.

With a modern processing facility, rigorous quality control, and consistently available inventory, we enable our partners to deliver refined results—on time, every time.

Built on decades of experience in the stone industry, COR is driven by craftsmanship, trust, and innovation. From upscale residences to commercial masterpieces and bespoke interiors, we help shape extraordinary spaces—one marble slab at a time.

CARE AND MAINTENANCE

- **CLEAN GENTLY AND REGULARLY** : Use a soft cloth with mild, pH-neutral soap and water for daily cleaning. Avoid harsh or abrasive cleaners to protect the stone's finish.
- **SEAL PERIODICALLY** : Apply a high-quality sealer every 1–2 years for natural stones like granite and marble to guard against stains and moisture damage.
- **PROTECT AGAINST SPILLS AND HEAT** : Wipe up spills immediately especially acidic ones like wine, citrus, and vinegar. Use coasters, trivets, and cutting boards to prevent stains, burns, and scratches.
- **AVOID HARSH CHEMICALS** : Stay away from bleach, ammonia, and acidic cleaners that can dull or damage the stone over time.
- **MAINTAIN WITH CARE** : Dust with a microfiber cloth, blot (don't scrub) spills, and polish occasionally with a stone-safe product to keep the surface looking its best.
